

Your Companion in Business!

Our Mission

As more and more computers and accessories become the spine of any small or big businesses, Southern Info Tech, LLC took on the task to provide high standards of technical services, so your business can prevail.

Our Commitment

In Southern Info Tech, LLC with 12 years of experience behind us, we are committed to be there for your business in every step of the way, we can help you start to computerize your business, choose the right hardware, the right software, the right network configuration, design your website or logo.... If you are already computerized we can help you make sure that your computer systems run smoothly, and improve them to keep you up to date.

We believe that behind a great business should be a great technical support service and we understand the importance of a real time technical support. At Southern Info Tech, LLC we are committed to serve your business.

Our Services

I.T. Consulting

Have you found yourself in the situation where you need to buy a computer but you are not sure what specifications are needed: memory, speed, brand...?. The price approach is not the right one as the price of a computer is not a guarantee of satisfaction of your business need. ..., we understand your frustration in situations like that, that's why one of our goals is to open your eyes on all possibilities when it comes to buying technology hardware. Give us a call, let us help you make the right decision.

I.T. Consulting Service Chart:

- ◆ Design your logo and letter heads
- ◆ Phone assistance to operate software, and accomplish tasks on the computer.
- ◆ E-Help desk (Online Assistance)
- ◆ Analysis of your business work flow for future I.T. Solutions implementation
- ◆ Assistance in the prospecting for an appropriate I.T. Solution for your needs (example: We will help you search the market for software that is most appropriate for your business management and give you more possibilities so you can make your decision in all confidence)
- ◆ We will help plan your network, workstations; servers... in one word all your hardware implementation

Web design

In Southern Info Tech, LLC we will take care of your web representation from A to Z. We will:

- ◆ Build a Personalized design exclusive to your website (we don't use templates)
- ◆ Purchase the domain name (the URL address to access your website e.g.: <http://www.yourbusinessname.com>)
- ◆ Design new or Re-design existing websites
 1. Design your logo
 2. HTML
 3. Flash
 4. Java
 5. Php
 6. Mysql databases
 7. Images treatment
 8. E-commerce portals customization
 9. ... And much more.
- ◆ Host your website.
- ◆ Reference your website with the major search engines.

Computer Installation, Troubleshooting, Maintenance.

In the computer age we have come to expect from our machines to function properly 24/7 without stopping, especially in critical moments when we most need them. In reality, unfortunately this is far from been the case.

This is where we come in with our maintenance, troubleshooting and repair services. We work with you regularly to have your computer, server, firewall, network, printers, scanner... running as smoothly as possible.

Computer installation service chart:

- ◆ Install new computers Operating System (windows 98, windows XP, windows Vista, linux)
- ◆ Install new parts or upgrade your existing computers
- ◆ Install computer accessories (printers, scanners, cameras...)
- ◆ Install licensed software (Antivirus, Firewall Software, Word processing programs and Special software...)
- ◆ Install and management of servers (windows 2000, windows 2003, linux)
- ◆ ... and more.

Computer troubleshooting and repair service chart:

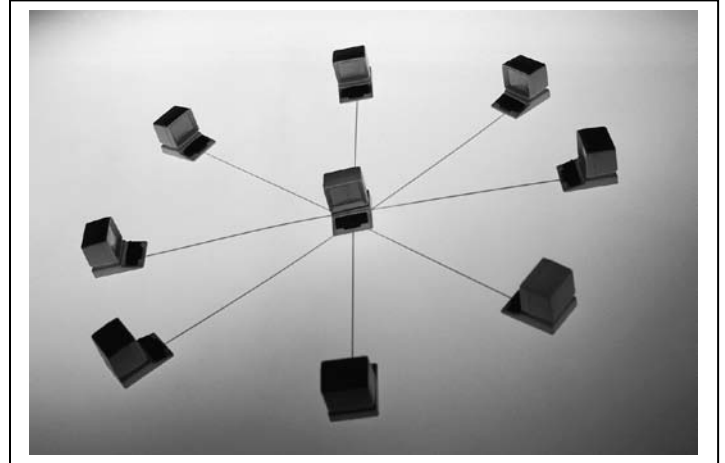

- ◆ Troubleshooting hardware and software problems
- ◆ On site repair of minor problems
- ◆ Handling of major computer crashes onsite to get your business up and running as quickly as possible
- ◆ Resolution of hardware conflicts
- ◆ Virus, Malware, Spyware infections treatment
- ◆ ... And more.

Maintenance service Chart:

The maintenance chart contains basically the two sections above applied on a regularly basis with a schedule that will be convenient for you and your business to make sure that your computers are running smoothly, have all the components needed software and hardware up-to-date.

Networks, Routers and Firewalls.

When we talk about Networks, we talk about multiple computers communicating with each other thru wired or wireless network. We can help you plan, setup, administer your network, install firewalls hardware and software to protect it from outside threats, install and manage routers to share, manage access to the internet for you, we mean to provide you with all your networking needs.

Networks service chart:

- ◆ Plan new implementation, or rearrangement of existing networks
- ◆ Network installation : wiring
- ◆ Troubleshoot network problems
- ◆ Install secure remote connection to your office for you and allowed personnel as a solution for the "On-The-GO" people.

Routers and firewalls:

The security of your network is a priority, we make it ours too, that is why we will advise you if requested of the best security solutions we know from experience to safeguard your system.

We will:

- ◆ Routers: Installation and configuration or reconfiguration
- ◆ Firewalls : Installation and configuration or reconfiguration
